Mi Portafolio 

TECH-STACK

- **Frontend:** React, Next.js, TypeScript, JavaScript, Tailwind CSS, HTML/CSS, Redux, Framer Motion, Ionic, Angular
- **Backend:** Node.js, Express, .NET, Java, Spring Boot, REST API, Prisma, PostgreSQL, MongoDB, SQL.
- **Herramientas:** Git, Docker, AWS, GitHub Actions, VS Code, Figma

EDUCATION

- **Bachelor's in Business Informatics**
University of Costa Rica, 2020 – Present (final year, expected 2025)
- **Cisco CCNA1 - CCNA4**
Technology Academy, University of Costa Rica, 2019–2020

PROFILE

Fullstack developer with solid academic background and hands-on experience building web applications, blockchain games, and open source tools. Passionate about continuous learning, modular design, and real-world solutions that combine modern frontend with smart contracts.

WORK EXPERIENCE

I don't have experience working at companies, but I have actively contributed to open source projects. Additionally, I've built personal projects published on collaborative platforms, where I've received external contributions from developers around the world and maintain an active role as both maintainer and contributor.

PERSONAL PROJECTS

- **OFFER-HUB**
Platform to list and discover freelance opportunities in real time.
- **AURORA LA**
Educational platform for online classes with crypto payments and video calls.
- **AQUA-STARK**
Blockchain game about aquariums with fish genetics, achievements, and NFT marketplace.
- **GALAXY SMART WALLET**
Decentralized wallet with account creation on Stellar.

SOME OPEN SOURCE CONTRIBUTIONS

- **REVO-MARKETPLACE**
Complete sections for “About Us” and “How It Works”, with i18n and UI/UX improvements.
